

## Table of Contents

1.	Summary, Observations and Conclusions.....	4
1.1.	Configuration .....	4
1.2.	Documentation .....	4
1.3.	User Interface .....	4
1.4.	Circuitry .....	4
1.5.	Handset.....	4
1.6.	Overall.....	4
2.	System Overview .....	5
2.1.	System Description .....	5
2.2.	System Function.....	5
2.3.	System Circuit Boards.....	6
2.4.	AC Mains Power Handling .....	6
3.	User Interface .....	7
3.1.	Display .....	7
3.2.	Controls.....	7
3.3.	Alarms.....	7
3.4.	Conclusions and Recommendations.....	7
4.	AC Mains Power Distribution.....	8
4.1.	Overview .....	8
4.2.	Inlet Power Receptacle and Ground Lug.....	8
4.3.	Second Filter .....	9
4.4.	Transformer.....	9
4.5.	Conclusions and Recommendations.....	9
5.	Exciter .....	10
5.1.	Exciter Overview.....	10
5.2.	Exciter Circuit Design.....	10
5.3.	Matching Network Circuit Design .....	11
5.4.	Exciter and Matching Network Magnetics .....	11
5.5.	Conclusions and Recommendations.....	12
6.	Controller .....	12
6.1.	CPU – Central Processing Unit.....	12
6.2.	DDS - Direct Digital Synthesis .....	12
6.3.	Driver .....	12
6.4.	Control Board DC Power Supplies.....	13
6.5.	Conclusions and Recommendations.....	13
7.	Handset.....	14
7.1.	Overview .....	14
7.2.	Transducer.....	14
7.3.	Frequency Response.....	14
7.4.	Conclusions and Recommendations.....	14
Appendix 1.	Exciter and Matching Board Waveforms .....	15
Appendix 1.1.	Drive Signals to T1.....	15
Appendix 1.2.	High Voltage DC Power Supply to the Exciter Circuit.....	16
Appendix 1.3.	Exciter Base Drive Waveforms .....	17
Appendix 1.4.	Exciter Output Transformer Waveforms .....	17
Appendix 1.5.	Matching Network Waveforms .....	21
Appendix 1.6.	How I Measured the Exciter High Voltage and Current Waveforms .....	22
Appendix 2.	Control Board Waveforms .....	24
Appendix 3.	Handset Vector Impedance – Measured using an HP 4194A Analyzer .....	27
Appendix 3.1.	Vector Impedance - In Water – Wide Frequency Scan .....	27
Appendix 3.2.	Vector Impedance - In Water – Medium Frequency Scan .....	27
Appendix 3.3.	Vector Impedance - In Water – Narrow Frequency Scan.....	27
